EXPERT Landscape™

EXPERT Landscape™

Professionally Design Your Exterior Surroundings

Expert Landscape is the landscaping program that allows you to design your back yard, patio, the grounds around your office, even your apartment balcony – easily and with professional results. Lay out your property lines to match actual dimensions, then arrange objects from the 200+ piece library: trees, shrubs, outdoor furniture, pools, fences, symbols, even house outlines. To help you visualize how the different layouts will look, move the objects on-screen. Use Expert Landscape's drawing tools to customize your plan. Enhance the layout with color and patterns. For example, mark a driveway and fill it with a brick pattern. Move, scale, flip and rotate objects on-screen to suit your plan. You can even add text to notate your plans. Landscape your property like a pro with Expert Landscape.

Visualize your landscape plan:

- **200+ piece library includes outlines for trees, shrubs, other plants, ornaments, pools, swings, lawn furniture, fences and homes.**
- **Includes "An Introduction to Landscaping," a written instruction guide with many helpful hints and tips.**
- **Full-featured drawing tools include lines, boxes, circles, eraser, flip, rotate, scale, fill patterns and color.**
- **Includes "Expert Plant Encyclopedia" a separate program containing information on rates of growth and sizes for common plants, shrubs and trees.**
- **Measures length of property lines, walls and rooms in feet or meters**
- **Add text to label your plan. Choose from three font sizes, horizontal or vertical placement.**
- **Print to standard graphics printers in regular or blueprint mode.**
- **Save to standard .PCX files**
- **Easy to use with mouse or keyboard.**
